## CIRCULAR # 4

### Monitoring of Customs Data

A meeting of PYMA was held on 26 June, 2024, during which it was decided that PYMA will now closely examine customs data to ensure all GDs are filed completely and correctly. This includes providing full descriptions such as DTY or FDY, denier, filament, lustre, and color under proper HS codes.

Data for goods cleared under HS codes other than 5402.3300 and 5402.4700, like "POY", "GRIEGE" and "NYLON," will be scrutinized even more thoroughly.

A committee has been formed to monitor this data. If the committee finds evidence of Misdeclaration by any importer, they are required to report the matter to the Customs Authorities.

To reiterate, PYMA specifically expects that:

Black and other colored yarns will be declared as per the actual color.

DTY goods will not be cleared as FDY goods.

Incomplete descriptions of goods, such as "Polyester Filament yarn," are not acceptable. Complete and correct descriptions are required.

Furthermore, due to increasing volumes of goods being cleared under HS code 5402.4600, PYMA will be coordinating with Customs Authorities to ensure that goods declared as "POY" are indeed "POY." We will recommend to Customs that valuations for "POY" be fixed, similar to DTY and FDY.

**Salman Aleem**  
Secretary General
